EB Docket No. 06-36
February 3, 2006

TO: FEDERAL COMMUNICATIONS COMMISSION, ENFORCEMENT BUREAU

In response to the Commission's Public Notice, DA 06-223 (released January 30, 2006), Bobby Williams, Vice President of Millry Communication, Inc., states as follows:

1. I am an officer of Millry Communication, Inc. ("MC") and this certificate is based on my personal knowledge.

2. MC is an affiliate of Millry Telephone Company, Inc. ("MTC"), a small rural local exchange carrier. MC provides communications related services to MTC customers, including long distance service and broadband access. MC provides services to approximately 3,180 customers. MC implemented the following measures to comply with the FCC rules contained in the subpart addressing CPNI for 2005:

(a) MC implemented a system by which the status of a customer's CPNI approval can be clearly established on the computer screens of MC personnel or representatives prior to the use of CPNI.

(b) MC has previously instructed its personnel and representatives as to when they are and are not authorized to use CPNI, with compliance subject to the normal disciplinary process.

(c) MC did not use CNPI for sales and marketing campaigns in 2005, however, if MC uses CPNI in the future for sales and marketing campaigns it will maintain a record, electronically or in some other manner, of their own and their affiliates' sales and marketing campaigns.

(d) CNPI was not disclosed to third parties in 2005, however, if it is disclosed to third parties in the future MC will maintain a record of all instances where CPNI is disclosed or provided to third parties in the future, or where third parties are allowed access to CPNI. Such record will include a description of each campaign, the specific CPNI that was used in the campaign, and what products and services were offered as a part of the campaign. This record shall be retained for a minimum of one year.

(e) MC sales personnel are required to obtain supervisory approval of any proposed outbound marketing campaign.

3. MC is unaware of any instances where its opt-out mechanisms did not work properly in 2005, however, it will provide written notice within five business days to the Commission of any future instance where the opt-out mechanisms do not work properly, except when such incident is isolated and an anomaly.

4. The aforementioned compliance mechanisms have been adopted in accordance with procedures implemented by MC's affiliate, MTC.
